SELECTED RECENT WEBSITES

Completed Dec 2015

Freelance

www.milk-vfx.com

Web development

A WordPress based website for a visual effects company. A complex site, this, with various social media feeds, HTML5 animations and bespoke Vimeo integration (quite proud of the animated playbar running using their API!)

Completed Nov 2015

Freelance

tickets.tickets

Web development

A bold site for a ticketing domain company. HTML5 video adds movement to the homepage and a couple of other flourishes throughout the site make it nice to browse on any platform.

Completed Nov 2015

Freelance

accent.media

Web development

A simple single page site that works nicely across all platforms.

Completed Mar 2015

At Line Industries

www.sandtable.com

Web development

A fully responsive site for a data-modelling company, built on WordPress with a nice full-screen HTML5 video on the landing page.

Completed Nov 2014

At Line Industries

www.realiseconsulting.com

Web development

A fully responsive site for a consultancy firm, built on a Line Industries bespoke CMS called Sitesuma, based on .NET.
